

InMindOut Advanced Artifacts & Report Writing Course Objectives

Thank you for choosing InMindOut's program for your educational needs. We provide the most up to date research in our course to ensure sufficient knowledge for optimal performance training.

By the conclusion of this course, the participants will be able to:

1. Explain which attributes of the EEG to review when artifacting;
2. Describe how to discern real EEG from artifacts;
3. Explain what a component is and how they relate to the raw EEG;
4. Explain which components are reviewed when gathering information about the general impression of background EEG;
5. Describe how to discern which component(s) to reject;
6. Describe the types of quantitative data to reconcile;
7. Explain how to create a hypothesis about EEG data;
8. Describe how to create a report based on the EEG data, quantitative data, and hypotheses created throughout artifacting and reconciling the record;
9. Demonstrate how to create a written report.

Again, thank you for choosing InMindOut's Advanced Artifacts & Report Writing Course. We look forward to assisting you on your journey as you expand your education!
